

Welcome To The Urology Center

We would like to welcome you to our practice and express our appreciation for choosing us to provide your care. Our goal is to provide our patients with the very best care and treatment in a comfortable and timely manner. With this goal in mind, please read the following instructions below prior to your visit to our office:

1. **Please complete** – the enclosed forms regarding your current urologic problem and past medical history prior to arriving to the office and bring them with you at the time of your appointment. Completing these forms prior to arrival minimizes your wait time and helps us operate in an efficient manner.
2. **Please bring with you** – any x-rays or lab tests which you have had that are applicable to your current problem. Please **DO NOT RELY** on your primary care doctor, the emergency room or the hospital to forward any pertinent x-rays or lab tests to our office. Unfortunately, if we do not have this information, we may be forced to re-schedule your appointment so that you receive the best possible care.
3. **Please obtain** – any necessary referrals from your primary doctor prior to your arrival to the office and make sure that you bring them with you at the time of your appointment. If we do not have the necessary referrals, your appointment may be delayed, rescheduled or cancelled as per your insurance company's regulations.
4. **Please bring** – your insurance card as well as a picture ID at the time of your visit. They are necessary for identification and insurance processing.

If you have any additional questions, please call our main office at (203) 789-2222.

Once again, thank you for selecting us to take part in your healthcare. We are looking forward to a pleasant medical relationship for years to come.

Sincerely,

The Urology Center
